Bringing initiatives from 0 to 1.

Experience

Sitecore

Product designer ∘ Aug 2024 - Present

At Sitecore I was initially hired as their AI designer, specialising in AI-related products. This grew to owning AI-enablement in design, to rebuilding our design system and spearheading new large-scale product initiatives to go from idea to execution. Some highlights:

> Designed Sitecore Agentic Studio and AI innovation labs
> Led the rebuilding of our design system. From defining architecture to building a team and driving adoption
> Unified our DXP offering by designing the merge of our CDP, DAM and search capabilities inside of SitecoreAI
> Owned AI-enablement across design and collaborated on such efforts with product leaders

Education

Leadership, Innovation & Technology - TU Dublin

Masters of Science (MSc) ∘ Aug 2026 - Current

Interaction Design - NCAD, Dublin

Bachelor of Arts (BA) ∘ Aug 2020 - Jun 2024
